(1) Following the consummation of the sale of the Foundry Services Group business and Fab 4 in Q3 2020, and for a period of up to three years, we will provide transitional foundry services to the buyer for foundry products manufactured in our fabrication facility located in Gumi ("Transitional Fab 3 Foundry Services"). Management believes that disclosing revenue of Transitional Fab 3 Foundry Services separately from the standard products business allows investors to better understand the results of our core standard products display solutions and power solutions businesses.

(2) Management believes that non-GAAP financial measures, when viewed in conjunction with GAAP results, can provide a meaningful understanding of the factors and trends affecting our business and operations and assist in evaluating our core operating performance. However, such non-GAAP financial measures have limitations and should not be considered as a substitute for net income (loss) or as a better indicator of our operating performance than measures that are presented in accordance with GAAP. A reconciliation of GAAP results to non-GAAP results is included in this press release.

Financial Guidance

While actual results may vary, Magnachip currently expects the following for Q3 2023:

- Revenue to be in the range of \$59 million to \$65 million, including about \$8 million of Transitional Fab 3 Foundry Services.
- Gross profit margin to be in the range of 22.5% to 24.5%.

We present Adjusted EBITDA and Adjusted Net Income (Loss) as supplemental measures of our performance. We define Adjusted EBITDA for the periods indicated as EBITDA (as defined below), adjusted to exclude (i) Equity-based compensation expense, (ii) Foreign currency loss (gain), net, (iii) Derivative valuation loss (gain), net and (iv) Early termination and other charges. EBITDA for the periods indicated is defined as net income (loss) before interest income, interest expense, income tax expense (benefit) and depreciation and amortization.

We prepare Adjusted Net Income (Loss) by adjusting net income (loss) to eliminate the impact of a number of non-cash expenses and other items that may be either one time or recurring that we do not consider to be indicative of our core ongoing operating performance. We believe that Adjusted Net Income (Loss) is particularly useful because it reflects the impact of our asset base and capital structure on our operating performance. We define Adjusted Net Income (Loss) for the periods as net income (loss), adjusted to exclude (i) Equity-based compensation expense, (ii) Foreign currency loss (gain), net, (iii) Derivative valuation loss (gain), net, (iv) Early termination and other charges and (v) Income tax effect on non-GAAP adjustments.

For the three months ended March 31, 2023, we recorded in our consolidated statement of operations \$8,449 thousand of termination related charges in connection with the voluntary resignation program that we offered to certain employees during the first quarter of 2023. For the three and six months ended June 30, 2023, we recorded \$802 thousand of one-time employee incentives.

For the three and six months ended June 30, 2022, we recorded \$797 thousand of professional service fees and expenses incurred in connection with certain strategic evaluations.
